

## **Assignment - File Management - For Video Editing**

The key to video editing is file management.

If I know where all of the pieces are, then it is easy to put them altogether.

Have students create folders.

Folder 1 - Stock Photos

Folder 2- Stock Videos

Folder 3 - My Photos

Folder 4 - My Videos

Folder 5 - My Narration

Folder 6 - My Music

Have the students insert 2-3 items for each folder.

Have the students import their folders into the editing program.

Edit together a montage.

Possible Narration Track -

Video Editing can be fairly straight forward. The key to video editing is knowing where all of your files are located. It's a good idea to have separate folders for your photos, videos, and audio tracks. Keeping things organized makes for a nice finished video product.
