

Assignment - Steady

Write a short scene involving two characters. (1 minute maximum - time your script before you proceed)

Film the scene in three shots - without tripod and then with tripod

- Master shot of both actors
- Close up of actor 1
- Close up of actor 2

Do a simple edit together of the scene. Compare the scenes.

Handheld can work. Maybe it does work for the scene. But ensure that students justify the handheld. If it's purposeful handheld then no problem.
