

Assignment - Lighting

Find the best lighting setup for an interview in the school. Come up with some 'fun' subject for this that students will enjoy but emphasize that lighting is key.

- 5 interviews (2 open ended questions) 1 minute maximum
- 5 different main lighting sources
- List your lighting source for each interview
- Powerpoint presentation - freeze frame for each interview shot
- In presentation explain light sources. Distance from light, strength of light, direction of light to the subject etc. Make sure students are detailed.
